

FOLENVIE, MERLOT - CABERNET SAUVIGNON

DESCRIPTION

The powerful, fruity bouquet releases aromas of black fruit and wild berries (plum, cassis, blackberry), along with hints of liquorice, vanilla and smoke. Rich and well rounded on the palate with a perfect balance between the solid, smoky cherry and cassis aromas of the Cabernet Sauvignon and the elegant black-fruit and liquorice notes of the Merlot.

VINIFICATION

Traditional vinification after harvesting of the healthiest grapes, destemming and crushing. Each grape variety is treated individually. Fermentation and maceration at controlled temperatures. Maceration of around one week for the Merlot and two weeks for the Cabernet. The two varieties are blended before bottling, to complement the Merlot's delicious fruit with the finesse and complexity of the Cabernet Sauvignon.

ADDITIONAL INFORMATION
