

DESCRIPTION

The story of the Espresso Martini is almost as rich as the cocktail itself. This popular cocktail was invented by Dick Bradsell back in the 1990's. Originally called the "Vodka Espresso" after a supermodel asked for a cocktail with coffee in it, the Contemporary espresso Martini has found its way to dinner parties and brunch gatherings across the globe. Try the Coppa Cocktails Espresso Martini for the perfect after dinner drink with a great kick. Created with vodka, coffee, liqueur and natural flavors, this Espresso Martini sure lives up to its endearing promise of another great night, celebrating life, love, and friends. Shake and serve as cold as possible in your glass of choice. Garnish with three coffee beans. Sedimentation might occur, shake before use. Once opened, keep in a cool place.
