

DESCRIPTION

Apothic Dark combines dark fruit flavours of blueberry and blackberry with lush notes of coffee and dark chocolate for a rich, yet silky smooth, wine experience.

VINIFICATION

The grapes for Apothic Dark were harvested during low night temperatures to ensure that the fruit arrived at cool temperatures at the winery for processing. Grapes were cold-soaked prior to fermentation to maximize the extraction of bold flavour and deep colour. Fermentation occurred at warm temperatures in order to enhance colour and flavour in the wine. Post-fermentation, the wine aged on oak chips / staves to compliment the natural dark fruit flavours with hints of dark chocolate and coffee.

AWARDS

2019 - International Wine Challenge : Bronze
